### [A] CONTENTS OF THE BOX

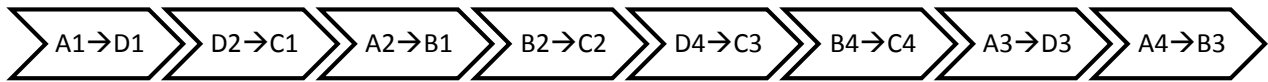

- a. Crosses x 4
- b. Small V shaped pieces x 4
- c. Medium V shaped pieces x 2
- d. Large V shaped pieces x 2

### [B] ASSEMBLY INSTRUCTIONS

1. All pieces are marked at each end with 1 alpha and 1 numeric code (A1, A2...D3 and D4). While assembling you must ensure that you have matched the codes and insert into the correct ends.
2. **Please Note:** The side of the pieces with the alphanumeric code **must** face inside of the chair during assembly and should not be visible on the outside once assembled.

3. Unwrap the 4 crosses and place them in a rhombus (diamond) shape with A and C opposite each other.
4. Start with the 4 x small pieces and join in the following recommended sequence **ensuring** that the locks click in place

5. **Please Note:** The above sequence is recommended, you may choose to assemble it in any other sequence however the last two steps (joining of the large V shape) must be the final two steps.
6. Once the frame is complete, take the chair cover and **partially** slide the two pockets over the back of the chair cover (Large V shape)
7. Now, take the bottom two pockets and slide them over the two medium V shaped pieces one after the other. The last pocket may seem a bit hard to slide on, you may stretch the pocket slightly to ease it over the frame however avoid excessive stretching.
8. Now, completely slide all the covers and press down firmly on each pocket to make sure that the frame is properly inserted in the pockets.
9. Check the frame again ensuring that all joints have locked and are firmly in place.
